Description

A-male to A-female USB cables are typically used to extend the reach of your existing USB A/B cable, or to use USB device such as memory stick on your desk instead of inserting it to the back of PC.

* Connectors: USB Type A Male to Type A Female * PC and Mac compatible

* Not for use beyond a total extended single length of 15Ft

* For longer length, use USB active repeater 150125 / 150152 / 150153
