Description

The 2x1 HDMI Switcher routes HD video and digital audio from any one of the four sources to display device. Three inputs accommodate the connections of 2 HD video sources simultaneously, such as cable box, satellite systems, game, or DVD players. The output sends the HD audio/video signals to a HD display. Switching is done by push button on the unit or via the IR remote that is provided with the unit. This mini switch has external IR sensor so that switch box can be placed in invisible place.

FEATURES

- * Switches easily between any 2 HDMI sources
- * Extends the range of HDMI compliant device by equalizing and re-clocking the HDMI signal
- * Maintains high resolution video - beautiful, sharp HDTV resolutions up to 1080p and computer resolutions up to 1920 x 1200 are easily achieved
- * External IR sensor (30" sensor cable)
