Description

CC-HDMI-EXF50 HDMI wall plate has built-in HDMI extender via Cat.5E/at.6 Ethernet cables (use 2 Ethernet wires), can extend full 1080P HDMI signal up to 150Ft . Extension via Ethernet is a solution when you have to use small diameter conduit pipes or wire flexibility is required. **CC-HDMI-EXF50** also has IR extension function. You can control HDMI source devices from remote display location.

- * Pair of transmitter and receiver
- * HDMI extender over Cat.5E or Cat.6
- * Full 1080P extension up to 150Ft (50m)
- * HDCP v1.2, 3D supported
- * IR extension system
- * Digital audio format, DTS-HD/Dolby-True-HD/LPCM7.1?AC3/DTS/DSD
