Description

The HDMI wallplate allows you terminate HDMI connector for in-wall connections. It has a straight feed-thru internal connector. The face plate is made to fit into standard wall mount. Includes inner & outer faceplate, feed-thru connectors and screws.

* Depth protruding into wall: 1-1/8".

* HDMI 1.4a (and backward compatible to all previous versions) to ensure your cable will work with today's, and tomorrow's electronic equipment.
