Description

10G Cat.6A cabling provides transmission performance that excceeds the industry standard Cat.6 parameters and supports the operation of 10GBASE-T over 100 meter.
10G Cat.6A solutions are qualified for frequencies up to 500MHz.

Application
* 10GBASE-T Ethernet
* 1000BASE-TX Fast Ethernet
* 1000BASE-T Gigabit Rthernet
* 100BASE-TX Fast Ethernet
* 10BASE-T Ethernet
* 155/622 Mbps ATM
* 4/16 Mbps Token Ring
* 100VG-AnyLAN
* 100Mbps TP-PMD

Features
* Performance conforms to proposed Cat.6A channel requirement of TIA/EIA-568-B-2-10 class EA ISO/IEC 11801, CENELEC EN 50173 and IEEE802.3an
